

What is Assessment and Service Connect?

Assessment and Service Connect (ASC) is a support service for families involved in a Child Safety assessment process. Assessment and Service Connect consultants are not Child Safety Officers, but funded partners of Child Safety.

Assessment and Service Connect consultants will work alongside families to increase children's safety and wellbeing so that Child Safety does not become involved again.

Some Assessment and Service Connect services may be partnerships with community agencies, and some may be co-located in Child Safety service centres.

All Assessment and Service Connect services are voluntary.

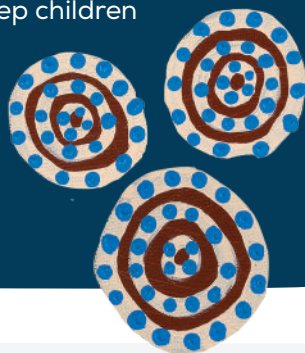

Assessment and Service Connect aims for kids to be safe and cared for at home with their families.
